MedWish International is a Cleveland based nonprofit organization that saves lives and the environment by repurposing discard medical supplies and equipment to provide humanitarian aid to people in need. It’s estimated that more than 1 million people around the world benefit from our efforts each year.

As we look back on 2020, we are struck by the impact of the pandemic and the rallying spirit of our global community. The MedWish team responded to these unprecedented challenges with solidarity and resilience. We are proud of these accomplishments, made possible by support from people like YOU.
